- In Nigeria, the corporate landscape is steadily advancing to require higher levels of transparency, accountability and corporate governance in companies. As a result, the Financial Reporting Council of Nigeria formulated the “National Code of Corporate Governance” which aims to ensure good corporate governance practices in the public and private sectors of the Nigerian economy.
- Legislative reforms such as the “CAM Bill”, are also key indicators that the FGN is taking steps to address the inadequacies in the ease of doing business and the governance of companies incorporated in Nigeria.
